Farrier's Formula® *DS* Plus Joint provides active ingredients to repair and strengthen the connective tissue of hooves and joints.

The inclusion of ornithine, proline, and manganese provide targeted joint repair and support.

The level of the "joint health" active ingredients in the recommended Adult Dosage for a 1,000 pound horse is equivalent to the sulfur contained in 3,500 mg of MSM.

Omega 3 fatty acids, phospholipids, and zinc are necessary for rebuilding skin to a healthy condition. Copper restores hair coat pigmentation.
